

SCAVENGER HUNT FOR YOUNGER CHILDREN

Flora
Fauna

**Explore Ponderosa
State Park
with Scout the Fox!**

This scavenger Hunt is for younger children (ages 6-7) to get them observing nature while hiking in the park. Please do not collect live things, you can take or draw pictures instead. You can pick-up a few cones, especially in they are on the road, sidewalk, beach, or a lawn. You will be helping the maintenance crew.

- 1. Find a tree with three needles in a bundle. This is a Ponderosa pine.**
- 2. Find a tree with leaves. If it has white bark, it is probably an aspen.**
- 3. Find a cone. What tree is it from?**
- 4. Find a bird. Is it in a tree?**
- 5. Find a mammal that lives in a tree. (Mammals have fur).**
- 6. Find a mammal that stays on the ground.**
