

**Purchasing Card  
Merchant Category Codes (MCC)  
Template Worksheet**

**Company Name:**

**Template Name:**

**Identify the Cardholders:**

*You have three options for specifying **Template Name** on the line above:*

1. If all cardholders in your company have the same exclusions, write "All Cardholders." You only need to fill out one Merchant Category Code worksheet for the entire company.
2. If a department, division or work group of cardholders has the same exclusions, write the name of the group and fill out a worksheet for that group.
3. If a cardholder has a unique set of exclusions, write the cardholder's name. Fill out a separate worksheet for each cardholder who has unique exclusions.

**How To Mark Merchant Category Codes:**

- - *Each allowable merchant category has a numeric code.*
- - *As a default, all types of merchants are allowed for a company's Purchasing Card program.*
- - *You must mark an X by the types of merchants you want excluded for your cardholders.*
- - **If you do not mark X by a merchant code, that type of merchant will be allowable on Purchasing Card Transactions.**
