

Whoop Um Up Parking Lot

The popular Whoop Um Up parking area becomes limited in its capacity to accommodate vehicles as the winter season progresses due to challenges of snow removal. You can help maximize the number of users who can enjoy this multiple-use trailhead by parking vehicles in the areas and orientations shown in this guide. Your cooperation is greatly appreciated by the Boise National Forest, Boise County Grooming 8A Program, Idaho Department of Parks and Recreation Park N' Ski Program, Idaho Transportation Department, and your fellow forest users. Funding from sales of snowmobile registrations designated to 8A and Park N' Ski passes designated to the Idaho City area assist in keeping this lot available for permitted users during the winter recreation season.
