AGENDA ITEM: Policy #4010 and #4015 Update

ACTION REQUIRED: Approve / Deny

PRESENTER: Seth Hobbs, Reservation/Registration Program Manager

PRESENTATION

BACKGROUND INFORMATION:

When IDPR started its journey to solicit a vendor to support IDPR's Recreational Management System, the board directed staff to give weight to companies that offer a dynamic pricing solution. In April of this year, the State of Idaho signed a contract with Brandt Information Services, LLC to build and service the Recreational Management System that offers dynamic pricing. This system will be open to the public on January 06, 2025.

One of the most powerful tools in the revenue management toolkit is dynamic pricing. Already widely adopted in industries like hospitality, airlines, and car rentals, dynamic pricing adjusts fees based on real-time demand, allowing park systems to capitalize on peak periods while maintaining accessibility during off-peak times. This approach is particularly relevant for park reservations, where factors such as seasonality, weather, and even special events can dramatically impact visitor demand. (Dynamic Pricing: A Strategic Tool for State Park Reservations Revenue Management; Matt Mitchell, Brandt Chief Revenue Officer, 2024).

Below is an example fee model which shows how IDPR plans on leverage the dynamic pricing for the state park reservations.

Prices will be set by Tier, Site Amenities, Booking Window, Holiday/Events, Occupancy, and Residency.

Discounts for Senior Citizens, Veterans, and Low Income still apply.

Reservation High Points:

3,800 reservations are booked 9 months prior to stay. 6,900 reservations are booked within 1 week prior to stay.

Prices will be at the maximum amount 9 - 8 1/2 months prior to arrival, 10 - 3 days prior to arrival, and around holidays and events. (With the exclusion of Basic sites in Tier C parks where at the 10 - 3 day window, prices will be set at \$26.00). Prices will fluctuate based on occupancy 2 days before arrival and at all other times.

At any point three fee rates could exist: Occupancy, Booking Window, Prescheduled Holiday Rate. We will prioritize the system to take the highest fee available. Reservations Program Manager will have the authority to adjust fees within the minimum and maximum approved by the board and offer discounts of no more than 50% of the minimum fee as an incentive to increase occupancy at any state park. This will be managed through promotions after review of historical occupancy rates for that given time.

Attachment A is an example of what occupancy based dynamic fees look like.

Lottery:

In addition to dynamic pricing, IDPR will be moving to a lottery system for our most popular group sites; Lionhead Group Camp at Priest Lake and Bear Lake Group Camp 100 and 101. The lottery will be open for any stay between May 01st and September 30th of each year.

Customers will pay a \$25.00 nonrefundable application fee which will allow them to pick a primary and alternate date for the lottery, maximum of seven consecutive days. The lottery will be open from January 01st to January 31st each year. Customers will be notified of the lottery results by February 15th each year. Lottery may be entered one time per customer.

RV Dump Stations:

To help alleviate infrastructure costs, staff recommends adding a \$10.00 per use fee to all IDPR dump stations. This is the market price for RV dump stations at private and other government ran locations.

STAFF RECOMMENDATION:

Staff recommends that the board approve Policy #4010 (Attachment B) and #4015 (Attachment C). This includes the addition of dynamic pricing, lottery system for high demand inventory with a \$25.00 application fee, and an \$10.00 RV dump station fee.

Attachment B:

Fees

Effective date: 10/31/2024 Policy #: 4010

1. Purpose:

The purpose of this policy is to articulate the criteria to consider in setting fees, to provide details on various fee waivers and discounts, and to document the current fees established by the Board as documented in <u>Policy 4015: Fee Table.</u>

2. Scope:

All Department employees are expected to comply with—and will be held accountable to—the standards in this policy.

3. **Responsibility:**

The operations administrator is the owner of this policy and is responsible for bringing forward any proposed fees to the Board. The owner is responsible for reviewing and updating the policy to reflect current laws, needs, and strategic initiatives. The Board must approve any changes to this policy.

4. Standards and Procedures:

4.1. **Definitions**

Board: The Idaho Park and Recreation Board.

Department: The Idaho Department of Parks and Recreation.

Director: The Idaho Department of Parks and Recreation Director or designee.

Employee: A person employed by the Department. For the purposes of this policy, the term does not include volunteers.

IDAPA: Idaho Administrative Procedures Act.

Program Manager: The Idaho Department of Parks and Recreation employee that has approval authority for specific programs, including but not limited to the financial officer, reservations program manager, development bureau chief, human resource officer, registration program manager, recreation bureau chief, natural resource program manager, state and federal grants manager, park manager, region managers, operations administrator, management services administrator, communications manager, public information officer, and Director.

Volunteer: persons who live or work in the park as campground hosts, provide education programming, assist with maintenance tasks, or otherwise donate their time and unique skills or talents to the Department.

4.2 Board-Approved Fees

Statewide fees go through the IDAPA process where maximum fee levels are proposed by the Board and approved by the Legislature. All fees listed in <u>IDAPA 26.01.20.225.02</u> are maximum fees unless otherwise stated. The Board sets the actual approved fees. Specific facility use fees will be set by the Board and posted on-site. See *Policy 4015: Fee Table* for the complete list of Board-approved fees.

4.3. Considerations in Setting Fees

Visitor and user perceptions are shaped by the value they perceive they achieve through paying park and program fees. The payment of fees should be viewed as a statement of partnership between visitors and the Department to promote stewardship of park and recreation resources and provide reasonable access to those resources.

- 1. The Board should carefully consider and evaluate proposed changes to fees. The Board will consider, but not be limited to, the following criteria in setting fees: Persons who benefit directly from state park and recreation facilities and services should pay a greater portion of the costs.
- 2. Park and recreation use fees and charges should be designed and administered on the basis of the best available knowledge of the costs of providing visitor facilities and services and the impacts of visitors on resources. This includes the life cycle cost of facilities (i.e. acquisition, development, maintenance, and operation.)
- 3. Revenue created through parks or recreation bureau programs should help to support the mission of those programs.
- 4. Fees and charges represent only a portion of the revenues needed to develop, operate, and maintain a state park and recreation system, and are not a substitute for the state's investment in the Department.
- 5. The design of a program of fees and charges should be clearly linked to specific purposes (e.g. resource maintenance and protection, visitor facilities, and services, revenue generation) so as to guide its implementation.
- 6. Revenues from fees and charges should be shared across the park system.
- 7. Development and administration of user fees and charges should be accompanied by improvements in cost control, operational efficiency, use of partnerships, and accountability.
- 8. There should be a strong and visible links between the fees and charges paid by visitors and users and the quality of services and benefits received in return. High quality facilities and their continued reliability are more important than price alone.
- 9. Fees and charges should be based, at least partially, on a consideration of private sector fees and charges and impacts on local communities.

- 10. Program managers should be authorized and encouraged to administer user fees and charges with sensitivity to local opportunities, constraints, and issues of social equity.
- 11. Management of use to protect park and recreation resources and enhance the quality of the visitor and user experience is a legitimate goal of fee programs and a legitimate use of fee revenue.
- 12. The Department should conduct a continuing evaluation program to monitor and analyze the cost effectiveness of user fees and charges.

4.4. Proposed Change to Maximum Allowed Fees

Changes to the maximum fees and charges allowed through IDAPA must be promulgated through the *Administrative Procedures Act* process.

4.5. General Fee Waivers and Discounts

Disabled Veteran. Motor vehicle entrance fees and all individual campsite fees, regardless of campsite type, are waived for Idaho resident veterans that meet the eligibility requirement of 100% permanent and total service-related disability. The Veteran is responsible to pay the reservation fee; the cancellation fee may be waived.

The Department will accept either of the following forms of verification:

• A veteran's administration letter confirming that the veteran's disability is 100% permanent and total service related.

• A disabled veteran license plate on their vehicle that has been issued by Idaho transportation department.

Upon receiving the verification, the Department will issue a lifetime identification card. The veteran will need to show the lifetime identification card upon entering the park.

Tax-Exempt License Plates. Motor vehicle entrance fees are waived for vehicles displaying taxexempt license plates or operating under the contract with a public agency eligible for taxexempt license plates.

Senior Citizens. Pursuant to Idaho Code §67-4223 and at the discretion of the Director the Department may provide, at selected under-utilized locations and times, a senior discount of up to a maximum of 50% of the applicable camping fee.

Limited Income. Idaho residents showing proof of limited income (Medicaid card or other evidence approved by the Board) may receive a camping fee discount of \$4.00 per day.

Members of the Nez Perce and Coeur d'Alene Tribes. With appropriate identification, Nez Perce, and Coeur d'Alene tribe members receive free motor vehicle entrance fees.

Existing Cabin, Float Home, and Moorage Lessees. Existing cabin, float home, and moorage lessees are exempt from paying motor vehicle entrance fees at the park which they are leasing from.

Fees

4.6. Department Employee Discounts

Camping. All full-time and 9-month classified, permanent employees and Board members will be allowed free camping and entrance fees in all of the Department campsites and facilities. All employees who use the employee discount for camping will need to make their reservations no earlier than 30 days prior to arrival so as to not displace paying guests. In addition to this, the discounted individual will be responsible for reimbursement of any cleaning services associated with that stay as well as reservation fee costs. Employees who want to take advantage of employee discounted camping will need to call the reservation program to make all reservations and any modifications associated with their stay.

Annual Motor Vehicle Entrance Fee Stickers. The Department will provide an annual motor vehicle entrance fee sticker to all full-time, permanent state park employees and Board members. The Department will also issue motor vehicle entrance fee stickers to volunteers and seasonal employees who are expected to contribute 100 hours or more of service that calendar year.

4.7. Committee Member and Lifetime Pass Discounts

Annual Motor Vehicle Entrance Fee Stickers for RV Advisory Committee Members. The Department will issue annual motor vehicle entrance stickers to the RV Advisory Committee members and will allow two nights free camping per visit to a state park, provided there is space available and paying guests are not displaced. Thereafter, the regular campsite fee will be imposed.

Lifetime Pass Holders. The lifetime pass allows free camping in all of the Department campsites, camper cabins, and yurts. The lifetime pass holder reservation must not be made earlier than 30 days prior to arrival so as to not displace paying guests. The lifetime pass holder will be responsible for the reservation fee costs. Lifetime pass holders will call the reservation program office to make all reservations and any modifications associated with their stay. See also the lifetime pass provision under *Policy 3030: Service Recognition*.

4.8 Group Use Damage Deposit Fee

The Department group use damage deposit fee cap is \$2,500. Each park manager will establish a minimum group use damage deposit fee based on the particulars of each facility. Upon finding that no damage occurred beyond normal wear-and-tear, the Department will return the deposit.

4.9 Reduced Occupancy Discount

The Reservation Program Manager has the authority to reduce the overnight fee no more that 50% for underutilized individual campsites or facilities.

5. Revision History:

 Supersedes Board policies OPE. 4:98 Revenue Generation Policies; OPE. 5:01, 05, 08, 11 Fee Waivers and Discounts; OPE. 5:10-12 Documentation of Board-Approved Fees; ADM. 9:75, Free Camping and Entrance Fee; ADM. 9(a): 81 Day Pass Waived; ADM. 9(b): 86, 03, 08 Annual Passes for RV Advisory Committee; OPE. 5:13 Group Use Damage Deposit

Fees

- 2. Revised by PS&ES on 10/17/2016. Moved to new format, combined sections, edited for detail and clarity, and modified lifetime pass and employee discounts.
- 3. Approved by Board on 2/8/2017.
